

Reception Week Beginning 23rd March 2020

Literacy	Maths	Physical	Discussion
<p align="center">Go to - https://home.oxfordowl.co.uk/books/free-ebooks/ Support your child with their home reading.</p> <p>Here you will find a selection of the books that your child will bring home in their book bags, such as the Biff, Chip and Kipper books. Read, read, read!</p>	<p align="center"> https://www.topmarks.co.uk/learning-to-count/teddy-numbers https://www.topmarks.co.uk/learning-to-count/gingerbread-man-game</p> <p>These games are to support your child with counting securely and stopping at the correct amount. e.g. if your child is asked to count out 6, ensure they stop at 6.</p>	<p>Encourage your child to get themselves dressed; putting their own arms through the sleeves, practising buttons and those tricky zips!</p>	<p align="center"> https://www.onceuponapicture.co.uk/?fbclid=IwAR35G43GRI9IpnikMQ6QKTB3x0YnGuK26JJhd9AebUI_Z0mxjGX0IWkflk This website has lots of interesting pictures and illustrations that are fantastic for starting a conversation</p> <p>Question ideas- who / what is in the picture? What are they doing? Why are they doing it? Where are they? What might happen next?</p>
<p align="center">Practise writing their full name.</p> <p>Begin by copying. If they can do this, ask your child to write it from memory! Then ask them to check they have done it correctly.</p>	<p align="center">Number ordering:</p> <p>Collect 10 leaves from the garden, or local area, if out and about in open space. Use a marker pen to write a number on each leaf. Then put the leaves in the correct order. If you have some string, you could put a hole in each leaf and encourage your child to thread each leaf onto the string (for some extra fine motor practice!). If your child finds this easy, you could extend them to numbers to 20.</p>	<p>Get up and ready for 9am! Joe Wicks is doing PE lessons for children every weekday morning whilst they are off school on his YouTube channel.</p> <p align="center"> https://www.youtube.com/user/thebodycoach1/videos </p>	<p>Go for a walk (at a safe distance and depending on your current position) and look for signs of Spring (weather changes, daffodils, longer days and lighter mornings etc).</p> <p>See the link below for national trust parks who are opening spaces for free during the current time.</p> <p align="center"> https://www.nationaltrust.org.uk/search?type=place&query=manchester&lat=53.48075930&lon=-2.24263050 </p>
<p align="center">Share a story from home.</p> <p>Encourage your child to talk about the characters in the story. Are they good/bad? Why do they think this? They could then draw their favourite character and label the drawing.</p>	<p>Cut an apple into 6 pieces. Ask your child to share between them and you. How many pieces will you have each?</p> <p>What would happen if their sibling/dad/grandparent wanted some? Would you then be able to share equally between 3? How many pieces each will you have?</p>	<p>Encourage your child to cut their own food when eating a meal.</p>	<p>During Spring, lots of animals have their babies. Together, find out the names of different adult and baby animals. i.e. horse/foal, pig/piglet etc. You could use books or the internet.</p>
