Battleships

Home Physical Education

Can you play fairly and keep the score?

How to play:

- With a partner, each player places three targets (battleships) in front of them.
- Players take turns to throw an object towards their opponent's battleships.
- Each time a battleship is hit, it is removed.
- Players are not allowed to stop the object from hitting a battleship.
- The winner is the first player to hit all of their partner's battleships

Can you keep trying even if you miss the target?

Top Tips

Throwing Underarm

Step forwards with one foot, releasing the ball from low to high using your opposite hand

Let's Reflect

What did you learn after each throw to adapt for the next?

How did you keep focused?
