Water

Builds up vocabulary that reflects the breadth of their experiences.

Watch how water is used to make jelly and talk with your grown up about what changes you notice. Listen out for the new vocabulary being introduced.

[Making Jelly](#)

Shows some understanding that good practices with regard to exercise, eating, and sleeping can contribute to good health.

[Why Do We Need To Sleep And Eat Healthy? - Get Well Soon](#)

Physical Development

Funky fingers activity.

Pre-writing lines and shapes.(part 6)

[Fine Motor Skills](#)

Share this story by Denise Fleming, on our new topic theme of water. Can you remember some of the animals that live in the pond habitat.

[In the Small, Small Pond](#)

Watch the video and help to write a list of the different ways we use water.

[Uses of Water](#)

Join in with this number song and learn about subtraction.

[Ten in the bed](#)

Timing

Place a collection of small items such as marbles, buttons, shells, toy cars etc with some containers. Set the timer on a phone for 1 minute.

Ask children how many marbles they think they might be able to put in the containers before the timer runs out. Encourage mathematical thinking by asking- 'How many did you get that time/ last time?' 'Who got the most? How do you know? What would happen if you used one hand/ a different pot?'

Online counting and number recognition activity.

[Flower counting](#)

Sing along and join in with the actions..

Activities/ Recommendations to Support Emotional and Sensory Development

Water play doesn't have to be loud and busy, it can be a tranquil activity where children are quietly absorbed. Children benefit from the relaxing and therapeutic nature of pouring and running hands through water.

On sunny days let the children wash dolls clothes, or small cloths in a bucket outside. Or let them wash their bikes, prams or large toys with soapy water.
