Tuesday 26th January 2021

Dear parents and carers

Charlie's challenge 1

You may remember last week that I said we were about to launch a weekly Friday afternoon challenge. The first one will take place this week and I cannot wait to see your creations!

All Charlestown children are invited to join in on Friday afternoon with the challenge and then take a photo of their creation and send it to challenge@charlestown.manchester.sch.uk. Photos sent to the email address will then be used on our website and social media. **Your children can appear in the photo if you choose as we will not be naming children – or you can just send a photo of their work – the choice is yours.** Children can work on their own or as a family – just make sure you have fun!

The challenge

Create a model of a building – this can be a simple house or castle, or a famous building if you want to be really creative.

Use anything you can find: empty cereal boxes, foil, paint, cotton wool, wool, cling film, string – the list is endless.

Here are some ideas to help you:

If your children are attending school, they will also be able to take boxes and items with your children on Friday.

If you need some resources, please contact the school and we will see what we can do to help!

Yours sincerely

Allison Collis
Headteacher
